### **Kaleida Health**

Kaleida Health is the largest healthcare provider in Western New York, serving the area's eight counties with state-of-the-art technology and comprehensive healthcare services. Our expert, compassionate healthcare professionals are committed to providing the best experience possible for those who enter our facilities, from patients to visitors, because we understand that when people are sick – or when someone they love is sick –they are often at their most vulnerable.

That's why more than 1 million sick or injured patients choose to visit Kaleida Health hospitals annually, including Buffalo General Hospital, DeGraff Memorial Hospital, Millard Fillmore Gates Circle Hospital, Millard Fillmore Suburban Hospital, Women and Children's Hospital of Buffalo and numerous community healthcare centers.

We also provide important services through our long-term care facilities, behavioral health programs and the Visiting Nursing Association of WNY, Inc.

Each of our member facilities has a strong tradition of outstanding service to the WNY community, dating back to as early as the 1800s. Together we are bringing our patients a strong history of dedication to the community and the finest quality medical care -- every day.

With 1,800 physicians practicing across the system and 3,000 nursing personnel, Kaleida Health offers a wide array of career choices and continuous learning opportunities for healthcare professionals, as well as serves as the major teaching affiliate of the State University of New York at Buffalo's Schools of Medicine and Biomedical Sciences and Dental Medicine.

The largest hospital in the system is Buffalo General Hospital, which was founded in 1855. A 511-bed acute care medical center with a wide spectrum of clinical inpatient departments and outpatient services, its specialized programs include cardiac and orthopedic surgery; urology; psychiatry; dialysis; gastroenterology; cardiac rehabilitation; rehabilitation medicine; kidney and pancreas transplantation; neurology and neurosurgery.

Located in the city of North Tonawanda, DeGraff Memorial Hospital has 70 inpatient beds and provides medical and surgical services; a specialized medical rehabilitation unit for patients requiring extensive rehabilitation following surgical procedures; a sub acute unit for the care of patients who require less intensive rehabilitation services; and a skilled nursing facility.

Founded in 1872, Millard Fillmore Gates Circle Hospital is a 189 bed acute care hospital in Buffalo. It offers neurology; neurosurgery; ophthalmology; orthopedic surgery;

cardiology; dentistry; pathology; dermatology; urology; respiratory therapy; skilled nursing; and pulmonary studies.

Millard Fillmore Suburban Hospital is a 201 bed hospital located in Amherst, one of Western New York's fastest growing areas. Built in 1974, this facility provides non-tertiary hospital services including gynecology/obstetrics; dialysis; orthopedic surgery; ambulatory surgery; and diagnostic nuclear medicine.

For over 100 years, Women and Children's Hospital of Buffalo has been the regional center for comprehensive, specialized pediatric and women's health services. Its 190 inpatient beds are allocated to pediatric care; maternity; pediatric intensive care; physical medicine and rehabilitation; neonatal continuing care; neonatal intensive care; and neonatal intermediate care. The hospital enjoys a world wide reputation for innovation and research and also provides highly specialized care and treatment through a broad array of outpatient clinics.

### **VA Western New York Healthcare System at Buffalo**

VA Western New York Healthcare System (VAWNYHS), part of VA Healthcare Network Upstate New York (VISN 2), consists of two health care facilities in Buffalo and Batavia, as well as community based outpatient clinics in Dunkirk, Jamestown, Lackawanna, Lockport, Niagara Falls, Olean and Warsaw.

### **Catholic Health**

Formed in 1998 under four religious sponsors, Catholic Health in Buffalo, NY provides healthcare to Western New Yorkers across a network of four hospital sites, fourteen primary care centers, six diagnostic and treatment centers, a freestanding surgery center, six long-term care facilities, two adult homes, three home care agencies, and several other community ministries.

### **ECMC**

The medical center (ECMC) in Buffalo, with 550 inpatient beds and 156 skilled nursing home beds

More than 40 outpatient specialty care clinics throughout Western New York

The Erie County Home, a skilled nursing facility in Alden, NY with 586 beds

ECMC is a regional center for trauma, burn, rehabilitation and cardiac care, and is also a major teaching facility for the University at Buffalo.

### **Roswell Park Cancer Institute**

Roswell Park Cancer Institute (RPCI), America's first cancer center founded in 1898 by Dr. Roswell Park. RPCI is the only upstate New York facility to hold the National Cancer

Center designation of "comprehensive cancer center" and to serve as a member of the prestigious National Comprehensive Cancer Network.

Over its long history, Roswell Park Cancer Institute has made fundamental contributions to reducing the cancer burden and has successfully maintained an exemplary leadership role in setting the national standards for cancer care, research and education.

The campus spans 25 acres in downtown Buffalo and consists of 15 buildings with about 1.6 million square feet of space. A new hospital building, completed in 1998, houses a comprehensive diagnostic and treatment center. In addition, the Institute built a new medical research complex and renovated existing education and research space to support its future growth and expansion.
